INTRODUCTION

OUR MISSION

The BASIC Fund (Bay Area Scholarships for Inner-City Children) is a privately funded 501(c)(3) organization whose mission is to broaden the educational opportunities for inner-city children by helping low-income families afford the cost of tuition at private schools in the Bay Area.

OUR VISION

The BASIC Fund has a clear vision to open the door to as many families in need as possible. In the Bay Area, there are thousands of empty seats in private and parochial schools – schools which lead to graduation rates of more than 95%. We can fill those seats!

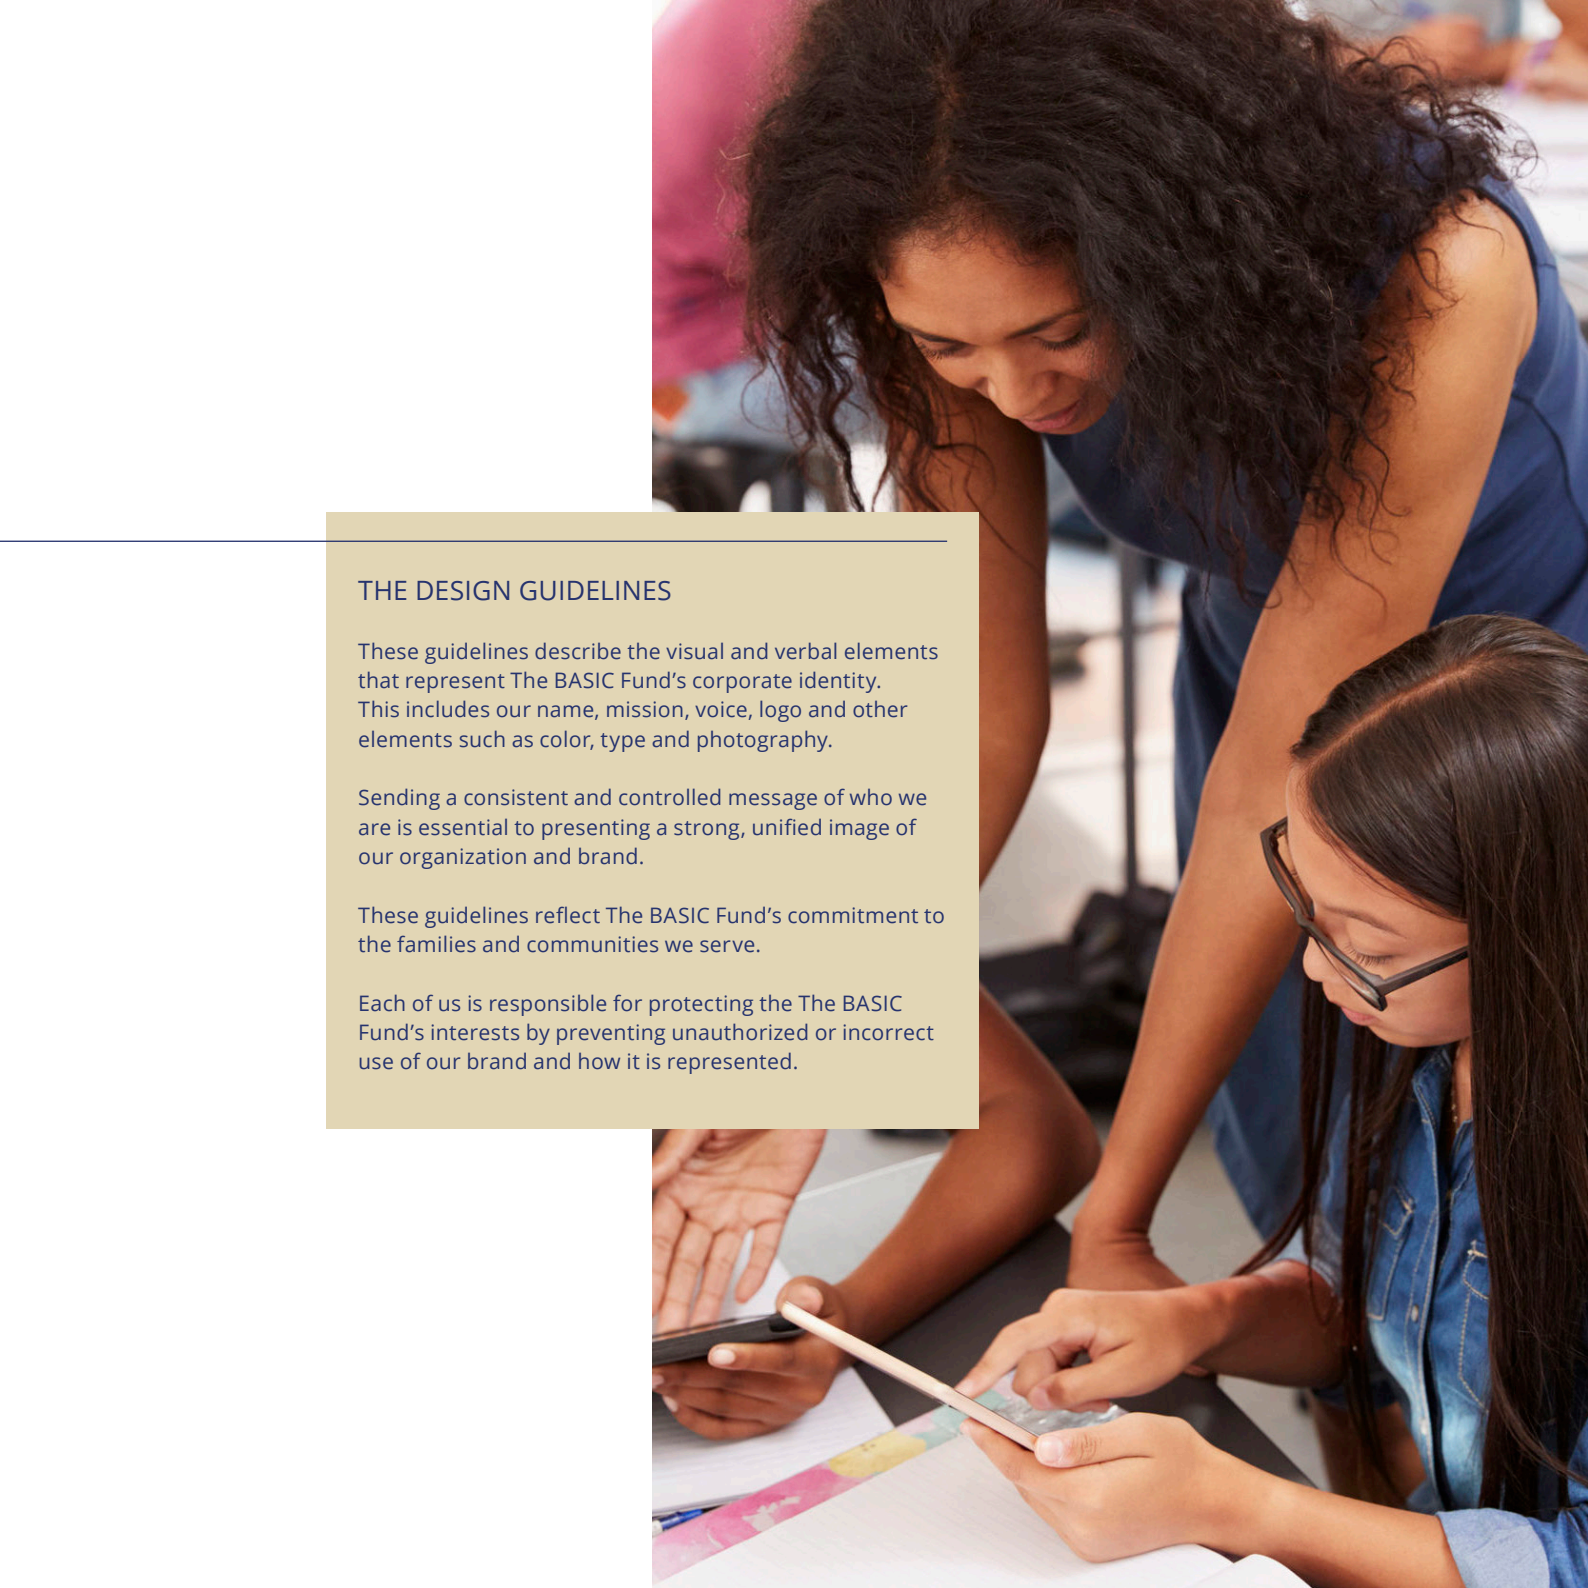

Founded in 1998 by Jim McCarthy, Arthur Rock, and the late John Walton, the organization helps low-income Bay Area families find viable education alternatives for their children. The Founders' vision was to offer children of low-income families a solid foundation in their early education. Further, that the best way to achieve this was to partner with three main stakeholders: parents, children, and schools.

- Parents. A key differentiating factor of our program is that we create an alignment with the parents of our students

by requiring them to make a financial commitment to their child's education. In return they receive a multi-year commitment from The BASIC Fund

- Children. We provide access to quality education and all the academic and social benefits that can accrue from a private school environment.
- Schools. We enhance student body diversity and increase enrolment. In many cases, the additional students provided by The BASIC Fund have kept these quality schools open, further improving our efforts.

It is our mandate to ensure long-term academic, economic, and social success for thousands of the Bay Area's most under-served children, their families, and the communities in which they live.

THE DESIGN GUIDELINES

These guidelines describe the visual and verbal elements that represent The BASIC Fund's corporate identity. This includes our name, mission, voice, logo and other elements such as color, type and photography.

Sending a consistent and controlled message of who we are is essential to presenting a strong, unified image of our organization and brand.

These guidelines reflect The BASIC Fund's commitment to the families and communities we serve.

Each of us is responsible for protecting the The BASIC Fund's interests by preventing unauthorized or incorrect use of our brand and how it is represented.

BASIC FUND LOGOS

LOGO INTRODUCTION

The BASIC Fund has a unique way to represent the diversity of the organization and the communities that it serves. One logo did not seem adequate in portraying the children and families that we care about and work with. That is why we have 8 logos to represent a spectrum of families and individuals.

Each of the 8 children logos are designed to work as individuals and as a group, representing how The BASIC Fund's individual focused care has broad reaching community outcomes. These logos should all be employed equally across design needs and randomly rotated through collateral and campaigns.

BASIC FUND

The Collective Logo

The collective logo features all 8 children and should be used for messaging pieces that are intended for the internal staff and team at The Basic Fund and for “thank you” letters and pieces to donors. It should not be used for general marketing material or for material intended for BASIC Fund families and schools.

2

BASIC FUND

The Primary Logos

The primary logo should show only one child at a time but a different child in each instance. The specific illustration can be random or based on content when appropriate. Be sure to use all of the different designs equally across campaigns and individual collaterals.

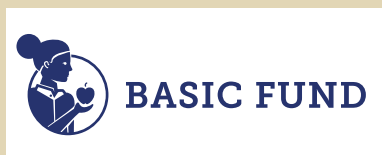

1) The Logo Symbol

One of 8 children illustrations that represents the individuals that The BASIC Fund serves.

2) The Logo Title

The typeface is a carefully chosen modern slab serif that represents the contemporary and modern efforts of The BASIC Fund while harkening back to the early roots of modern education in America.

LOGO DARK VERSION

3

LOGO LIGHT VERSION

4

3) Dark Version

This is the primary and most frequently used version of the logo. It is for use on light backgrounds and on light areas of photography.

4) Light Version

The light version should be used on dark backgrounds, most often on the official BASIC Fund blue, and on dark areas of photography.

Recommended formats are:

.eps | .ai | .svg | .png | .jpg | .tiff

Attention:

Use of any stylized, animated, hand drawn or other versions of an official logo is not permitted. This undermines the logo system and brand consistency.

LOGO CONSTRUCTION, CLEARSPACE AND COMPUTATION

It is important to keep logo marks clear of any other graphic elements. To regulate this, an exclusion zone has been established around the brand mark. This exclusion zone indicates the closest any other graphic element or message can

be positioned in relation to the mark of the the symbol itself and our organization's name – they have a fixed relationship that should never be changed in any way.

CLEARSPACE

Full Logo

Definition

Whenever you use the logo, it should be surrounded with clearspace to ensure its visibility and impact. No graphic elements of any kind should invade this zone.

Computation

To work out the clearspace take the height of the logo and divide it in half. (Clearspace = Height / 2). The letter "B" can be used to quickly find this distance.

ADDITIONAL ICONS

THE BASIC FUND ICONOGRAPHY

THE ICONOGRAPHY SYSTEM

An icon is a pictogram displayed on a screen or print layout in order to help the user navigate through the content in an easier way. The icon itself is a small picture or symbol serving as a quick, “intuitive” representation of a software tool, function or a data file.

EXAMPLES FOR THE BASIC FUND ICON SYSTEM

The icons system uses school symbolism to highlight, call out, and otherwise indicate important information that needs a visual shorthand to improve readability, understanding, and closer attention.

Most icons may be added overtime and used. Make sure that they are solid form in the brand blue and that their proportions and distributions of positive and negative space mimic the style and subject matter of the icons listed here.

SECTION 4

TONE OF VOICE

THE BASIC FUND'S TONE OF VOICE

LANGUAGE AND WORDS

The BASIC Fund's tone of voice is that of a caregiver. It should convey a deep concern for each individual student, for their families, and for their broader communities. The tone should be strong but never condescending or cold. It should be warm but never convey a sense of pity. The language should inspire

confidence and a desire to bring out the best in the students. The BASIC Fund works with an expectation that as these students grow they embrace a responsibility to perform their best and to serve the communities they are in.

TYPOGRAPHY

THE CORPORATE FONTS AND TYPOGRAPHY

THE CORPORATE TYPOGRAPHY

Typography plays an important role in communicating an overall tone and quality. Careful use of typography reinforces our personality and ensures clarity and harmony in all BASIC Fund communications. We have selected Open Sans and

Alfa Slab One, which has an easy to read and contemporary aesthetic with historical characteristics related to the history of modern education in America.

PRIMARY BODY COPY FONT

PRIMARY FONT OPEN SANS

DESIGNER :
STEVE MATTESON

THE FONT

Open Sans is a humanist sans serif typeface designed by Steve Matteson, Type Director of Ascender Corp. This version contains the complete 897 character set, which includes the standard ISO Latin 1, Latin CE, Greek and Cyrillic character sets. Open Sans was designed with an upright stress, open forms and a neutral, yet friendly appearance. It was optimized for print, web, and mobile interfaces, and has excellent legibility characteristics in its letterforms.

ALFA SLAB ONE

DESIGNER :
JM SOLÉ

THE FONT

Alfa Slab One is a contemporary take on the Six-lines Pica Egyptian created by Robert Thorne for the Thorowgood Foundry in 1921. Although initially based on that model, Alfa Slab One was designed with an extreme stem weight, big serifs, more stem contrast and gradual terminals with a single serif. All this attributes give Alfa Slab One a contemporary look with extreme black density.

TYPOGRAPHY AND TEXT HIERARCHY

Typographic hierarchy is another form of visual hierarchy, a sub-hierarchy per se in an overall design project. Typographic hierarchy presents lettering so that the most important words are displayed with the most impact so users can scan text for key

information. Typographic hierarchy creates contrast between elements. There are a variety of ways you can create a sense of hierarchy. Here are some of the most common techniques to use when representing The BASIC Fund.

SECTION 6

COLOR SYSTEM

THE PRIMARY COLOR SYSTEM AND COLOR CODES

THE COLOR SYSTEM

Color plays an important role in The BASIC Fund's identity program. The colors below are recommendations for various media. A palette of primary colors has been developed, which comprise the "One Voice" color scheme. Consistent use of these

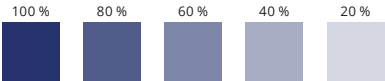

colors will contribute to the cohesive and harmonious look of The BASIC Fund's brand identity across all relevant media. Check with your designer or printer when using the corporate colors that they will be always be consistent.

PRIMARY COLOR SYSTEM

-

Explanation:
The BASIC Fund has three official colors: Blue, Beige, and Yellow. These colors are a recognizable identifier for the company.

Usage:
Use them as the dominant color palette for all internal and external visual presentations of the organization .

COLOR RATIOS

-

The vast majority of any page should be predominantly white or contain photography representative of The Basic Fund. The primary color after white space should be The BASIC Fund's brand blue. Beige can be used to ground larger fields of content and The BASIC Fund yellow should be use for smaller "hot" content such as buttons on the website or in important calls to action.

The secondary colors should be used sparingly to support the primary pallet when needed to contrast or differentiate content that needs special attention.

Refer to this color ratio chart for an idea of the propitiations of colors as they should appear in an overall piece. Keep in mind the white space of the page for reference.

SECTION 7

PHOTOGRAPHY

PHOTOGRAPHY STYLES AND STANDARDS

PICTURES OF THE PEOPLE WE SERVE

Brand photography must convey the values of The BASIC Fund as well as represent the people that we serve. The photography used to represent the brand should be comprised mostly of elementary aged school children to represent our focus on the individual student and early education.

Pictures may show parents and teachers working with children but the focus should be on the child and the child's activity. It is important to use a range of photos of children that is diverse as the families and students that The BASIC Fund serves.

EXAMPLES FOR BASIC FUND PHOTOGRAPHY

Requirements:

- sharp images
- elementary school aged children
- colorful
- active
- school and learning centric
- smiling or engaged faces
